

# TMS VS MEDICATION

A Clear Winner in Depression Treatment

When Two Medications Have Failed, What's the Next Best Step?

TMS provides better response rates than medication!

# 75%

For every 10 patients...

## Achieving Remission

TMS: 55%

Medication: 10.3%

### What is Remission?

Remission is when depression symptoms are so reduced that they no longer affect daily life. It's about feeling like yourself again.

## TMS leads to better outcomes in key symptoms

Anxiety Improvement
